Hey, Kelley

I heard you will be the EPA rep at the Ex. 6 - Personal Privacy resident mtg tomorrow night, is that right? I just wanted to coordinate mtg up w/you a little ahead of time.

I haven't been up to the site before so I have not been to the command post yet. Can you share the address for that? I am assuming that will be the best place to meet up with you? I hope to get on the road by 1 pm, arriving around 4 pm or so.

I also wanted to confirm that there is no other data for the Ex. 6 - Personal Privacy well from PADEP or Cabot that EPA has beyond the recent testing results in the 80-90 ppm arsenic range.

Thanks a million!!

If you need to reach me tomorrow my cell is Ex. 6 - Personal Privacy - I will be at the office today.

L

Lora Siegmann Werner, ATSDR/CDC Region 3
